#### Wheat Yield Is Poor. REPUBLIC SPECIAL.

REPUBLIC SPECIAL.

Carlyle, Rl., July 19.—The farmers in Clinton County have commenced thrashing their wheat. The yield averages from three to fitteen busfiels to the acre. Last year the average was from fifteen to forty bushels to the acre. All of the grain thus far thrashed is of excellent quality. Nearly all of the oats has been cut. The yield will exceed that of list year. Hay harvest will be finished by the end of next week. All of the timothy is of a fair quality and the yield up to the average. Abundant rains throughout the county have made a wonderful improvement in the corn. The present prospects are for an enormous yield.

Missouri National Guard Now in Camp at Lake Contrary-Largest Encampment in History of State.

REPUBLIC SPECIAL St. Joseph, Mo., July 19.-When Battery A of St. Louis arrived this forencon at Lake ntrary, where the National Guard of Missouri will be in camp for a week, the men hardly knew whether to hold thanksgiving services or prepare for the routine

A plucky station agent at a small town unknown to them, near Jefferson City, had saved them from a herrible catastrophe and but for his determination and luck haif of them doubtless would have been killed. The battery came to St. Joseph over the Missouri Pacific in a special train, which was running ahead of the fast mall train to Kansas City. The engineer of the spe-cial had orders to meet another fast train

out forgot or neglected to stop. The station agent waved frantically at the man in the cab, but to no effect. Then he tried to grab one of the forward cars, but was thrown off. He gathered himself up in time to catch the rear platform of the last car and stop the train by the emergency air brake. The special was hurriedly set on a siding and had acareely passed the switch head when the fast mail went whiz-

MODEST HERO. The brave station agent went back to his

work without telling any one his name and none of the officers of the battery knew the name of the station,but they know they had a very narrow escape. The battery arrived at noon, four hours late. The delay was caused by a wait at Kansas City for a company of the Sixth Battalion. The officers and men were not

in the pink of condition, on account of the hard trip Captain Frank M. Rumbold said that his en waited four hours for a little coffee in Kansas City. The battery has sixty men and sixty-five horses in camp. Their new equipment is the pride of the militia, as

well as the visitors.

The First Regiment, with 500 men, came in at 5 o'clock over the Burlington, and went into camp at once. The day was spent in preparing for the duties of the coming week. Routine camp life will not be taken up until to-merrow morning. Many members of the company spent the day at the end of a shovel handle digging trenches and pits and by night were ready to swear that the life of a soldier was not all glory. It was novel work to many of them.

CAMP NOT NAMED.
Lieutenant F. L. Reardon was detailed as regimental Quartermaster to act instead of Captain W. S. Robinson, who was un-able to accompany the regiment. Lieutenants Campbell Gray, Carl L Houseman and L. J. Elbrecht were detailed as battalion Adjutants. The regimental band, although not the splendid organiza-tion of which the First used to boast, keeps things lively in the north end of the

camp, where the regiment is located.

There was a conference between Adjutant General Wood and his staff officers this afternoon, when an attempt was made to name the camp, but an agreement could not be reached, and this matter was deformed for force of the control of the con

ferred for future action.

The programme for to-morrow was agreed to. It consists, in addition to the agreed to. It consists, in addition to the regular camp duties, of a street parade at 3 o clock in the afternoon. Three thousand men will be in line and Battery A will have the position of honor. All the regiments are here, the Second, the last to come addition the second.

LARGE ENCAMPMENT. The encampment is described by competent officers as the largest in the history of the National Guard of Missouri. Thousands of St. Joseph people visited the camp this afternoon, and many of the officers who are accompanied by their wives have quar-ters at some of the summer cottages at th

lers at some of the summer cottages at the lake.

The staff officers who are in camp are: General H. C. Clark, Colonel H. Jackson, attache regular army; Major A. V. Adams, Quariermaster; Major J. A. Tuttle, Commissary; Lieutenant Colonel J. H. McCord, Chief of Staff; Lieutenant Colonel J. A. De Armond, A. A. G.; Captain J. H. Parker, A. D. C.; Lieutenant T. F. Vannatta, Jr., Eighth United States Cavalry Volunteers, A. D. C.; Captain Elmwood Evarrs Eighth United States Cavalry, attache; Lieutenant Colonel Haller, Medical Director; Major E. S. Clark, ordnance officer; Captain W. L. Chambers, A. D. C., and Captain S. E. Lowe, A. D. C.

# THINKS HE CAUGHT RUDOLPH.

Hospital Patient Tells How He Tracked Bank Robber.

Henry Sommers, 25 years old, of No. 1611
Menard street, in the observation ward of
the City Hospital, imagines he has caught
William Rudolph, the Union Bank robber,
and gives a graphic description of how he
accomplished the feat.

He makes sport of Chief Desmond's force
and laughs at the efforts of Pinkerton men
to capture the bank looter, and the alleged
murderer of Detective Shoemaker of the
Pinkerton force.

Sommers says he caught Rudolph in the
cave in which Sam Hildebrand had his
rendezvous, and was enabled to do so by
means of a graphophone he has invented.

This instrument, he says, records conversations of all criminals and by means
of it the conversations between Rudolph
and Collins before the escape were made
known to him. Acting on this, he was enabled, he says, to locate and capture Rudolph.

His sanity will be inquired into.

C. E. Pierce, a Deputy Sheriff, was killed during the attack on the jail.

A state of lawlessness now prevails i Northwestern Wyoming. All law and order seems to have been abolished. From President Moffett of the Montana and Wyomin Telephone Company, who is now making a tour of inspection of his company's lines comes the news of the lynching and of ar appeal for help from Sheriff Fenton of Big Horn County. He has arrested a number of prominent cattlemen near Thermopolis and has appealed to the Governor of Wyom ing for assistance of the militia in getting his prisoners to the Basin.

SHERIFF WARNED. It was reported to Sheriff Fenton last Wednesday morning that a mob was coming up to Basin from Hiattsville and Tonslip for the purpose of lynching Gorman and As a measure of precaution the Walters. Sheriff took the two men and a horse thief out of the jail and secreted them in a gully near town under guard of Deputy Sheriff: Pelix Alston and C. E. Pierce.

Gorman managed to slip his handcuffs and make his escape. He swam the Big Horn River, an unprecedented feat, and nade for the mountains. A posse of seven men quickly organized and Gorman was ecaptured early yesterday morning about fifty miles from Basin. Last night a mob of about fifty unmasked

men rode up the east bank of the Big Horn nd compelled the ferryman to carry them across the river. They made no demon stration until they entered Basin, when five shots were fired as a warning. FIRED INTO JAIL

The mob proceeded at once to the county jail and fired a volley into the jail. Deputy Pierce and Special Deputy Meade were guarding the prisoners at the time. One bullet grazed Meade's shoulder and entered Pierce's heart.

Members of the mob then quickly procured two telephone poles and battered the jail loors down. They first came to Walters, who was crouched in his cell piteously begging for mercy. No needless torture was resorted to. Walters was shot instantly The mob next found Gorman, whom they shot five times. He was left presumably dead, but lingered, however until this fore-

Everywhere hardy Westerners are responding to the call, arming themselves and hastening toward Thermopolis. It is probable that the militia will be ordered to the scene, and a bloody battle may be fought. The country about Thermopolis is a wild and lawless one.

The last message from Sheriff Fenton, which was received this morning, said he still held the prisoners and that he believed he could hold out until re-enforcements came.

# DANGER OF WAR IS INCREASING.

Strained Relations Developing Be tween Russia and Japan Over Eastern Question.

MANCHURIA IS THE PIVOT.

Japanese Officials in China Speak of a Conflict as a "Probability"-Czar's Activity on the Yalu Resented.

Pekin, July 19.-According to diplomats here, the greatest factor in the Eastern situation is the increasing danger of war

between Russia and Japan, They believe it is becoming plain that Russia is willing to fight Japan if convinced that no other Powers will assist her. The Russians are confident of their ability to easily defeat Japan and are said to be anxous to settle definitely her position in Eastrn politics and end her ambitions to oppose

Russia's progress in Manchuria.

The belief is attributed to the Japanese that the Russian policy is to attempt to placate Great Gritain and America and pro-

voke Japan into beginning hostilities. They regard Russia's consent to opening orts in Manchuria, the Czar's promised visit to England and the occupation of the Kerean border as parts of that policy.

Russia's activity on the Yalu River is more irritating to Japan than the retention of Manchuria, and all Japanese officials in China speak of war as a "probability."

Niagara-on-the-Lake, Ontario, July 19.— The Republic correspondent called on Mr. D. J. Mr. Kelley replied: "I have a couple of hundred letters and telegrams sent me by John A. Lee in the course of a few years. Those which particularly refer to the situation in Missouri at this time will be presented as evidence in Jefferson City in a trial which is set for July 27. On that day my wife will reach Jefferson City and will present these orig-

Mr. Kelley produced a number of other letters, including one dated April 4, 1902, which feals with a campaign fund, and a series of letters of January, 1963, which deals with the organization of the last Legislature of Missouri.

There are still other most important letters which will not be given out to the public until after they are presented in court.
